DETAILED ACTION

The following action is in response to application 10/707,055 filed on November 18, 2003.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Tracy Druce on January 7, 2005.

The application has been amended as follows:

The Abstract has been replaced with the following:

--Method and apparatus for reversing the driving direction of a vehicle in motion, in which a movement of a gear selector to a position that indicates the new intended driving direction is detected, and the vehicle's driving brakes are applied depending upon the depression of the vehicle's gas pedal.--

In Claim 12:

on line 2, "consists of" has been replaced with --comprises--.

In Claim 13:

on line 2, "consists of" has been replaced with --comprises--.

Allowable Subject Matter

Claims 1-17 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the method for reversing the driving direction of a vehicle, and particularly including detecting a command for the vehicle to go in a reverse direction, and applying the vehicle's driving brakes in dependence upon a degree of depression of the gas pedal/accelerator, and including the remaining structure and controls of claims 1 and 15, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Loriette, Ito, Redzinski, James, Shore, Tietze, Mathers, Coley and Yamada have been cited to show similar controls.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roger L Pang whose telephone number is 703-305-0445. The examiner can normally be reached on 5:30am to 4:00pm.
